

## COMPANY INFORMATION

Crows Nest Soft Drinks was founded in 1903, and is one of Australia's oldest surviving soft drinks and syrup manufacturers. Whilst the factory has passed through ten families so far, one thing hasn't changed: Our attention to quality.

Our products are made using original old-fashioned recipes, and always with the highest quality ingredients. Each has the unique taste of Crows Nest Soft Drinks.

Our range of 17 different soft drinks and 29 different syrup flavours provide a flavour for all ages, occasions, and tastes.

We still bottle our soft drinks and syrups in glass, which not only preserves the taste much better than PET, but also gives the products an 18 month shelf life. Glass is also much easier to recycle and reuse, which we think is important.

The entire soft drink range has no added preservatives (Orange and Lemon Squash may have trace amounts from the concentrates used) and we even have a few products that are completely free of artificial colours.

Crows Nest Soft Drinks is available via independent distributors in many areas of Queensland and Northern NSW, and also online to all of Australia through our online store. For further information, please see our web site. New distributor enquiries are always welcome.
